-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-3 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.

- 6) ☐ Other: ____.

Art Unit: 1755

The Japanese reference cited in the information disclosure statement of 10 February 2004 has been considered with respect to the provided abstract.

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

The specification to which the oath or declaration is directed has not been adequately identified. See MPEP § 601.01(a).

The oath of 14 May 2004 is defective since it states the specification is attached. This oath is a supplemental oath, not the original oath, which was filed 10 February 2004. Thus, the specification was not attached with the oath of 14 May 2004.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is indefinite since it does not positively state that the claimed phosphor has the given formula. It is suggested to replace "host material can be represented" with "host material is represented" to overcome this rejection.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: the copper and/or zinc sulfate added to the intermediate which are required to transform at least part of the intermediate from the alpha-phase to the beta-phase.

Art Unit: 1755

Claim 3 is indefinite since it is unclear if this claim is defining the components actually used in the process, i.e. MgO and at least of the compounds in claim 3 must be the alkaline earth compounds in the process or is the claim simply further defining the compounds that can be used in the process.

Claim 2 is rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Components critical or essential to the practice of the invention, but not included in the claim, means the claim is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). The copper and/or zinc sulfate added to the intermediate which are required to transform at least part of the intermediate from the alpha-phase to the beta-phase is not taught in the claim.

Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

There is no teaching or suggestion in the cited art of record of a phosphor having the claimed formula or of the claimed process.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melissa Koslow whose telephone number is (571) 272-1371. The examiner can normally be reached on Monday-Friday from 8:00 AM to 3:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo, can be reached at (571) 272-1233.

The fax number for all official communications is (703) 872-9306.
